

Introduction

Stewardship Solutions was founded in 2003 to serve the increasing need within global chemical producing and using supply chains for high-quality product stewardship consultancy and training services. The organisation has clients and interests across many sectors including fine, speciality and commodity chemicals, agrochemicals, textiles, household & beauty products, coatings & adhesives, retailing, aerospace and biotechnology.

Profile of the Principal Consultant

Chris Eacott PhD, the principal consultant, spent much of his working career in technical / commercial roles within ICI and its daughter companies (Zeneca and Avecia). In recent years he has developed in-depth knowledge of chemical industry product stewardship principles and practices.

Chris has led the UK Chemical Industry Association's (CIA) Product Stewardship Task Force, and actively participated in the European Chemical Industry Association's (CEFIC) Product Stewardship Implementation Team. Together with the Head of Sustainable Development at Marks & Spencer, Chris established the UK Supply Chain Leadership Group, a unique product stewardship initiative that brings together representatives from the CIA, British Retail Consortium, and their member companies. He continues to serve on this influential team.

Chris is a prolific author of written articles on product stewardship, a speaker at international conferences, and serves on the editorial advisory boards of ICIS Chemical Business and Careline Responsible Care News
